

## Door Automation

**KABA**<sup>®</sup>

### New automatic doors give customers contact free access at West Somerset Garden Centre.

Kaba Door Systems, has provided new automatic doors for West Somerset Garden Centre.

Kaba installed an SLX bi-parting automatic sliding door system with Kaba PSX slim line profile door leaves to the rear entrance giving customers' unimpeded access to the outside plant display areas.

Kaba was awarded the new door contract having completed an automatic door installation previously. Replacing the existing doors ensures the new sliding doors help direct customer traffic more efficiently and comfortably through to the outside areas.

The Kaba SLX sliding door system uses CANbus technology to ensure safe reliable contact-free access. The CANbus system, unique to the SLX drive unit, continually

checks all door safety devices. If a problem is detected the CANbus will immediately detail the error and ensure that the door is not used in automatic mode. The SLX also uses Blue Tooth technology so that the doors can be programmed from devices such as mobile phones and PDA's, by Kaba's new key ring sized F-Key or BEDIX control unit.

Jayne Shoulders , Managing Director said "We are delighted with the doors and the customers have commented on the improvement. The new doors will help conserve energy by keeping the heat in over the winter period. The old manual doors were constantly being left open when the heating was on. Everything went smoothly from start to finish, including the doors".

The new doors installed fulfil access obligations under the Disability Discrimination Act (DDA).

Kaba Door Systems has over 80 years international experience in the design, manufacture and installation of a leading range of commercial and industrial door systems. With regional centres across the UK, Kaba also offers a nationwide entry repair and maintenance service. The company is a member of the Automatic Door Suppliers Association (ADSA) and is NHS Purchasing and Supply Agency (PASA) approved. Contact ref: CM/FMM/04/2419/05
